Premium Plastic Plug

Data Sheet

Premium Plug

Red and brown plastic plugs suitable for use in a range of concrete and masonry base materials. Suitable for use with wood screws.

		Red	Brown
Drill Hole Diam	mm	6.0	7.0
Plug Length	mm	37	37
Min. Hole Depth	mm	40	40
Screw size	No.	6-10	10-14
Screw Diameter	mm	3.5-5	5-6

A high density polyethylene plug, which provides a firm fixing in concrete and most masonry. The 2 part expansion ensure a positive grip without exerting excessive force on the base material. The 2 sizes of plug are suitable for standard wood screws in a range of diameters.

Typical Applications:

Switch boxes, light fittings, shelf brackets, mirrors.

Installation Instructions

1. Drill correct diameter hole through fixture to correct depth in base material.
2. Clean hole by blowing out dust
3. Hammer plug into hole
4. Attach fixture, insert screw and tighten.
